- A simple website that shows different astrology signs.
- Built with basic HTML, CSS, and JavaScript. Deployed via AWS.
- Called APIs for background image and astrology information.

Prior Experience

Greenville County Schools - Greenville, SC
Substitute Teaching | 2017-2018
- Fulfilled short-term substitute teaching requirements for core subjects in middle school through high school groups. Made an effort to experience as many different schools as possible.
- Ensured that classroom instruction is handled according to the school's policies, goals, and objectives. Asked by several schools for a phone number in case they needed a substitute to fill in.

Saginaw Valley State University - Saginaw, MI
Technical Writing Internship
- Conducted in-depth research and proposed a plan with regard to the development of an ideal design for writing.
- Leveraged skills in designing several mock-ups utilizing InDesign and presented them to the staff.
